Working together to make health happen

## Measure 97 Endorsed by OPHA and How You Can Help

The Oregon Public Health Association strongly supports Measure 97, which will have a lasting, positive impact on Oregon's health. Oregon ranks 50th in the nation -dead last- in corporate taxes, and the result is underfunded schools, hundreds of thousands of people without access to health care, and a public health system that doesn't have the resources to cover all Oregonians.

Investments from Measure 97 will prevent disease, reduce disparities, and add years to the lives of Oregonians- especially in lower income families that suffer most from disinvestment in schools and services.

How can you help?

Go To: <http://voteyeson97.org/>

Where you can:

Add your name to Measure 97's list of supporters.

Encourage your friends and family to support Measure 97.

Volunteer on the campaign.
